Equity investments in private resource companies

- 7.9% ownership in IG Tintic LLC (“IGT”)
 - IGT owns 75% of Tintic Consolidated Metals LLC (“TCM”) which has a substantial consolidated land package of over 14,000 acres of mineral rights, including 7,000 acres of surface rights, in the East Tintic Mining District near Eureka, Utah, including the Trixie mine.
 - TCM has reactivated the Trixie mine, announced the discovery of ultra high-grade gold and silver bearing veins in that mine, and is actively exploring additional mothballed legacy mines on its properties.

- 33.3% ownership in IG Far East LLC (“IGFE”)
 - IGFE has a 60% interest in a joint venture that owns the Durmin gold property in the Russian Far East.
 - IGFE, as manager of the Durmin project, is currently conducting exploration drilling on the property.
 - The drill program is replicating a prior positive drill program conducted during the Soviet regime, but from which all core samples were consumed by the assay laboratory. Based on the results of the prior drilling program, and initial assay results from its exploration drilling, IGFE believes the property is highly prospective for gold deposits.

Held for sale assets

- Letter of interest from a qualified purchaser to purchase Omega Insurance Holdings Inc. received in January 2021. A share purchase agreement is expected to be signed in June 2021, with regulatory approval later in the year.
- Letter of intent to purchase Springer for \$5,000,000 has been signed. Due diligence is underway and a share purchase agreement is expected to be completed in mid 2021.
